

# Chatis Resume

## Summary

I'm a senior software engineer with 15+ years of experience focused on increasing engineering velocity. Proven track record of driving organization-wide improvements by building scalable systems that reduce development time, standardize workflows, and enable teams to ship faster with higher quality.

## Core Skills

**Languages:** Kotlin, Go, TypeScript

**Systems:** Linux, Docker, Kubernetes

**Cloud:** AWS, GCP

## Experience

### Omnidian - Senior Software Engineer - Seattle, WA (2023–Present)

Driving engineering velocity improvements across the company.

- Built an analytics platform that reduced report delivery time from weeks to less than 1 day.
- Created a UI library that saves on average 1 developer day per UI task.
- Designed a Kotlin-based SOQL query builder that minimized query-related bugs and saved us 10 developer days on average per month.

### Technology Partners — Senior Software Engineer - St. Louis, MO (2019–2023)

- Built and maintained a reservation system with sub-second latency supporting enterprise-scale traffic.
- Designed a micro-service architecture that reduced infrastructure costs by 30% while improving up time and our ability to scale.
- Implemented an event-driven pipelines for real-time inventory updates that eliminated double-bookings.

### Previous Experience (2009–2019)

- **Marathon TS — Senior Full Stack Engineer (2019):** Modernized NGA geospatial systems, improving user experience and maintainability.
- **Concero — Full Stack Engineer (2018–2019):** Modernized RGA underwriting platform, improving our ability to add modern features to the app.
- **OCI — Software Engineer (2016–2018):** Built Boeing satellite control interfaces and created reusable UI component libraries.
- **BizLibrary — Full Stack Developer (2015–2016):** Developed multi-tenant learning platform (Vue.js + Spring).
- **Access Courier — Full Stack Developer (2012–2015):** Built a route management system that reduced delivery errors by 80%.
- **NetStat SARL — System Developer (2009–2012):** Implemented an application monitoring and deployment automation.

## Education

B.S., Computer Science — University of Missouri–St. Louis
